

111 Generative Poems

This book features 111 generative poems. The poems were randomly generated by JavaScript code based on a collection of advertising slogans. Each poem is the product of pure chance.

You are welcome to treat the poems as fortunes by opening the book at a random page and only reading one poem at a time, or read the whole book in one go, or simply enjoy the beauty of chance and randomness in moments of boredom.

**Why don't you?
Protect your legacy
This is your time**

The future of swiss
The future of drinking
A winning pair

**When performance matters most
Put a pause in your day
Don't crack under pressure**
